## SKILLS

Flutter

Java Data Structures

UI/UX

## Projects

### Flutter

**Flash Chat** - A chat app that stores the currently signed-in user's data on the Firebase database and allows the user to chat with the other user.

**FOODIEEZ App** - A fully functioned online food-delivery app that performs seller, riders, and consumer functions and allows the seller to add products and a consumer can buy the required item. It uses Firebase for the backend.

## EDUCATION

- Chandigarh University  
2020-2024 Bachelor of Engineering
